History of Us

This year the Shriners Scramble will be celebrating the 12th annual golf outing benefitting Shriners Hospitals for Children-Chicago. It has been our honor to gift \$174,000 over the past eleven years. This would not have been possible without the help of friends, community, corporations and family.

Most everyone knows of the "History of Us" from the day Connor was born eleven years ago with a bilateral cleft lip and palate. This was a complete shock to us, but Shriners Hospitals for Children-Chicago answered our prayers with eleven years of state-of-the-art care and love not only for Connor, but our entire family.

Love To The Rescue is not just a phrase or logo but the foundations of the hospitals that provide care for all the children in the world that require medical care regardless

of ethnicity, religion or financial concerns. Connor was born not only with a birth defect but with the opportunity to become a young boy who cares for everyone & accepts diversity with strength that in part has been provided to him with the care and assistance from Shriners Hospitals for Children. These hospitals treat more than the medical needs; they treat the patient and family's spirit, strength, weakness, perseverance and love. The Chicago hospital has become an integral part of our family's lives.

We host the annual Shriners Scramble as a way to give back to the Hospitals. These hospitals provide the highest quality of treatment and we must support the ongoing research and care. This golf outing is NOT about Connor but about the care that is provided to thousands of children that our patients of the twenty-two Hospitals throughout the country.

The Shriners Scramble is extremely grateful for the support of our community, businesses and friends. Every year the success is due to the monetary donations, raffle & silent auction items donated by so many individuals and businesses. Also for the many friends and family that tirelessly give their time.

From, Kelly & Connor

Connor's Thoughts

I have been going to Shriners Hospitals for Children in Chicago for eleven years. I have learned that a cleft lip and palate is not as bad as some of the other disabilities my hospital friends have. The hospital is like home to me. The people there are very special in my life, like Ms. Gwen, one of the nurses, Mary O'Gara, the Cleft Clinic Director, Dr. Patel, Dr. Curtis, Dr. Grudd and the others! They have made me see how important it is to help others.

I love helping my mom and family to host the golf outing every year because it makes me feel so good to give back to the hospital. They have given so much to me like a SMILE. They have provided me with so many opportunities in life. Over the past few years I have been in TV commercials, I was the 2016 Prince at the Illinois Shrine Football Bowl game. There I met a good friend and mentor, Gabe. I also attended the 90th Anniversary celebration where I met Rachel Solor who also has become a friend. I represented the Chicago Hospital at the John Deere Classic & Las Vegas Shriners Open, where I met Riley & others. I was also a guest of the Chicago Bears at a practice and half time of a game.

LOVE TO THE RESCUE!
